"It's a 'rock star' horse because it has green hair. I got on the horse's back in the middle and I went on the slide down here. I let it smell me. I liked it all. I liked seeing it walk. I wish I got to ride on the little horse." 1

"Blue"

"Blue is going for a walk with me on his back. Blue stopped because he turned back to the house. He lives in the barn and the people live in the house."

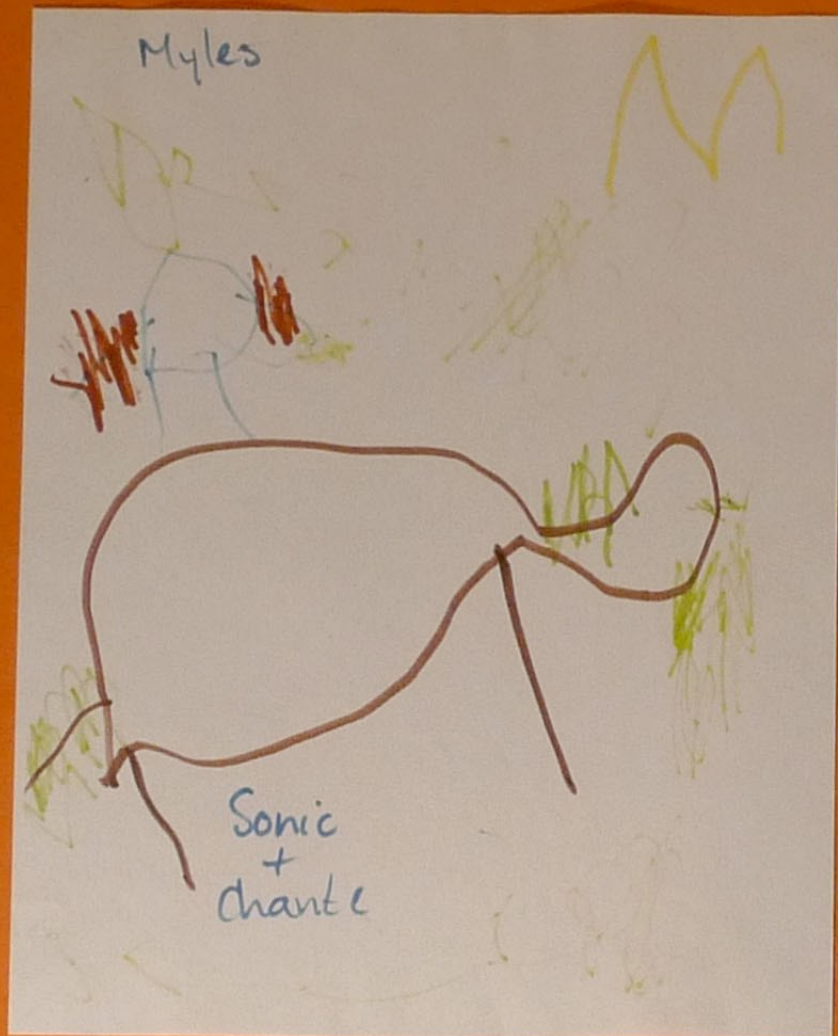

Harlow

"The grass is there, cause there wasn't no more room for grass. I was riding the horse."

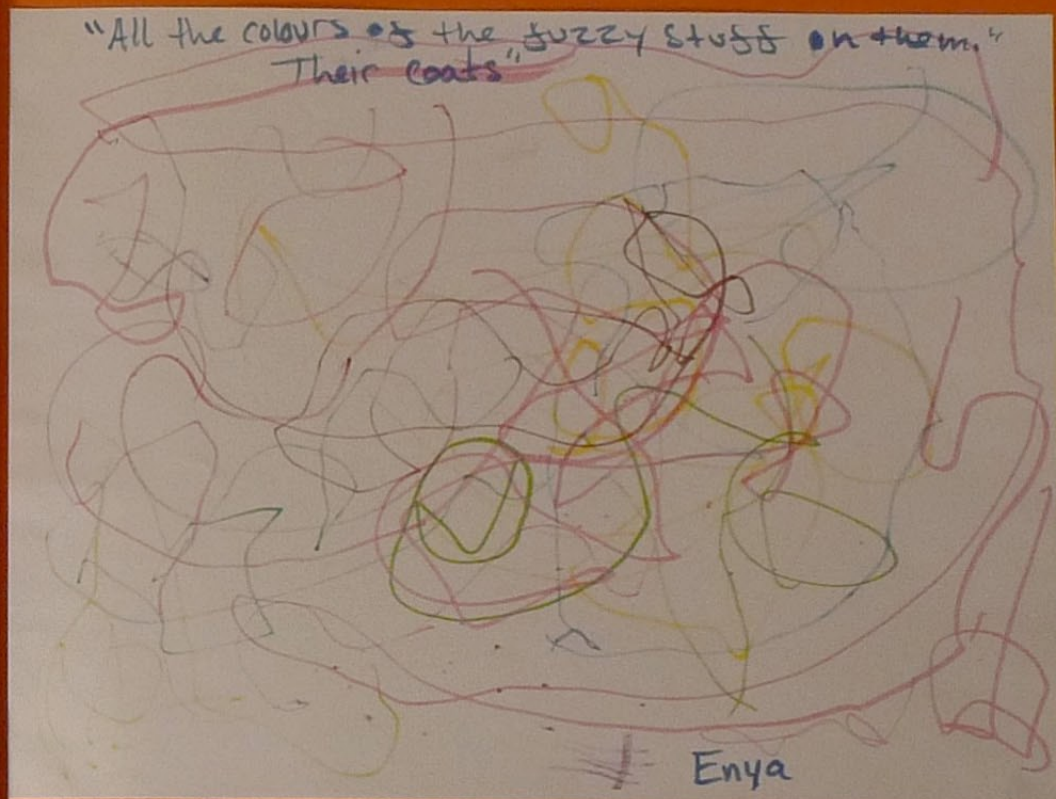

"This horse lives in Lakeside Pond. It likes to eat hay and horse treats, carrots and apples. And he likes to dig in dirt and fly in the sky. Her name is Sheila."

"This is grass that my horse is eating. Sonic and Chante are real horses. They live in a house that looks like this . They have no owners cause they are wild horses. Their favourite food is grass. The yellow guy is the human. He is going for a walk and he wants to bring them home but he can't because they are wild horses and he didn't know they are wild."

"I put rain on it and the horse likes rain. He never goes in the barn because the farmer is building the barn. Sometimes he likes rain and sometimes he doesn't like rain. My horse likes to eat raspberries and grass and a little hay. And the horse has lots of friends. And whenever he hears a lightning, or he sees a wild animal come to eat him, or a thunder storm, he just runs into the barn and the farmer closes the door so all the other horses can't see the wild animal."

"Her name is Alfalfa and she is very old and she only eats wet stuff. She only gets a little hay and her food is mixed with water to make it soft. And the little ones just stays in the barn and never comes out there. And the foal sleeps a lot into the barn."

NB/Enya has been working hard to remember how to use 'mare', 'foal', and 'stallion'. This was the first time she used it appropriately in her talking and it pleased her a great deal. She also taught the others how to say horse in German... "pferd".
